

Magnum 400 Alba

164904006

1,780.00 GBP

News: The Magnum porch awning is now launched in the bright and elegant Alba colour, as an alternative to the classic Etna colour. Alba has been designed with a focus on light, space and a calm atmosphere – perfect for campers who want a more modern and Nordic look for their awning. The colour combination is discreet and stylish, blending beautifully with both new and classic caravans. At the same time, Magnum is introduced in a brand-new size with a width of 260 cm – ideal for those who want a more compact and lightweight porch awning without compromising on quality or comfort.

Magnum are touring-friendly porches, which are quick to put up when you're on the go. The front and side panels can be folded down/removed and, together with two mosquito net sides, offer a wealth of ventilation options. Magnum are made of Isacryl, which ensures a good indoor climate.
